

MBA Miniature bearing sensor

Construction

Application	Temperatuur measuring from bearings
Use	Effective method to monitor the bearing temperature

Sensor

Type	PT 100
Accuracy	According to IEC 751 Class B
Operating range	-50 / +120°C
Material	316 stainless steel, brass or copper
Diameter	3.20 mm
Length	7.60 mm
Conductors	Silver plated copper conductors PTFE

Cable

PT 100	2 or 3 wire connection
Flying lead	1000 mm as standard

Options

Conductors	Stainless steel braid
