

Affordable, worry free wireless scanning capabilities

Looking for an affordable solution for both 1D and 2D wireless scanning? MS352 is designed to remove restrictions!

Affordable and ready for standard to high density barcode reading

Our MS352 fits into any environment, whether it is retail, warehouse or even a hospital. No need to worry about missing a beat in a noisy environment thanks to the vibration feedback the scanner gives. Next to this, the high transmission speed thanks to Bluetooth 4.2 connectivity; makes for quicker scanning.

The MS352 enables you to remove wired restrictions in your working environment. Moreover, its interface is also suitable for different applications, making this a widely applicable product to use. The MS352 acts in a market where the requirement for 2D scanning keeps increasing with a projected growth of 20% in the next five years.

Strong hardware and software

The MS352 is not only widely applicable thanks to its software versatility, it is also suitable for rough environments thanks to its impressive drop resistance. It has both water, dust proof sealing and vibration feedback in the handle.

Successful scanning can be achieved by the wide range resolution of 1280x800 (HD) and wide skew, pitch and roll angles. 600 frames per second reading speed are attained.

Connectivity and durability

The sturdy materials and wide range scanning resolution, combined with a 2600 mAh LI-ION battery and a durable trigger make the MS352 an incredible value-for-money option for any environment. The Bluetooth 4.2 Dual Mode, Class 2 Range connectivity and a range of 30 meters in open air also make it incredibly connected for even faster and more repetitive scanning. The MS352 is both suited for RS232 interface project requirements as well as high density barcode application projects.

Features

- 2D, 1280x800 scanning resolution
- Scanning angles of 70° skew, 75° pitch and 360° roll
- 600 frames per second
- 2600 mAh Li-ION battery
- Connectivity with Dual Band BLE 4.2
- Durable construction with protection bumpers
- Comprehensive 4-year, worry-free warranty

Operational & Performance

Receiving Device 2D Imager Image size 1280 x 800 pixels HD: 1D (Code 39): 3 mil Min. Resolution HD: 2D (QR): 5 mil SR: 1D (Code 39): 4 mil SR: 2D (PDF417): 6.7 mil

Illumination 0~100.000 LUX

Field of View Horizontal: ±42° / Vertical: ±26.5° Scanning angle Skew: ±70° / Pitch: ±75° / Roll: 360° **Printing Contrast** 20% minimum reflection difference

Decoding Rate 600 times per second

Programming Method Manual (reading special barcode) Program Upgrade Using Flash Utility software, while a cradle is required.

Indicator

Scanner LED, Beeper, Vibrator

Cradle **LED**

Power Source

Operating voltage 5 ± 0.25 VDC (Scanner/Cradle) 2600 mAh Lithium-ion battery Batterv Current scanner Working: 350 mA / Standby: 20 mA

Current cradle Working: 60 mA Charging: max. 500 mA

Charge Time 4 hours Standby Time 4.5 days

Operating Time 46 hours (1 scan per 5 seconds)

Enclosure

Scanner dimension 90.2 x 70 x 180 mm Cradle dimension 118 x 89.5 x 74 mm Scanner weight 210 g (Scanner only) Cradle weight 140 g (Cradle only without cable)

Environmental

Operating temperature 0°C to 50°C Storage temperature -40°C to 60°C

Humidity 5%-95% non-condensing

Drop resistance 1.5 m IP rate IP51

Cable Cradle Straight 2.0 m (PS/2) / Straight 1.5 m

(USB) / Straight 2.0 m (RS-232)

Communication

Radio Frequency 2.4-2.5 GHz,

Bluetooth 4.2, Class 2 Range

Range 30 meters (open air)

- Safety

EMC EN55022, EN55024 **Electrical Safety** EN60950-1

Photobiological Safety EN62471:2008

Warrantv

Scanner/cradle 4-year limited warranty

Battery 3 months
